

## MOST EFFECTIVE PRACTICE

One-to-one classes allow students to improve their speaking skills and listening comprehension in a setting that eliminates the embarrassment and inhibition that may come from group learning environments.

## BETTER TIME MANAGEMENT

One-to-one classes guarantee optimal use of time, since the student is working with their instructor one on one and making use of every minute.

## INTERGRATED COURSE SCHEDULING

The myEnglish platform dashboard shows all study activity, including completed telephone classes and time spent in the platform.
